5 Kilo, Addis Ababa, Ethiopia

EDUCATION

2023-2027

ADDIS ABABA UNIVERSITY

• Bachelor of Biomedical Engineering

• GPA 3.6/4.0

2024-2028

ALPHA UNIVERSITY COLLEGE

• Bachelor of Management

• GPA: 3.9 / 4.0

SKILLS

- **Programming Languages:**
  HTML, CSS, JavaScript, Python, Java
- **Software & Tools:**
  MATLAB (Basic), LTspice, Excel, Word, PowerPoint, Video Editing, Graphics Design
- **Technical Skills:**
  Biomedical Signal Analysis (ECG, EEG, EMG), Medical Instrumentation, Biosensors, Digital Logic, Electronic Circuits, Data Analysis, Technical Writing
- **Core Competencies:**
  Problem-Solving, Communication, Time Management, Team Collaboration, Project Leadership, Healthcare Data Handling

LANGUAGES

• English

• Amharic

PROFILE SUMMARY

Biomedical Engineering student at Addis Ababa University with a strong academic record (CGPA: 3.6) and a solid foundation in biomedical engineering principles and analytical problem-solving. Highly motivated to engage in research and contribute to data-driven and technology-based solutions in healthcare. Currently studying Management at Alpha University College to strengthen interdisciplinary research and project coordination skills. Passionate about full-stack development and AI integration in medical systems, with a goal to digitize and enhance patient data access for healthcare providers.

WORK EXPERIENCE

AAU Digital library

Student Technology Mentor (Volunteer)

- Guided social science students in designing personal portfolios and e-commerce websites
- Introduced foundational web development concepts and digital literacy tools
- Facilitated collaborative learning environments and supported independent problem-solving skills
- Enhanced students' technical capabilities through hands-on mentoring and project guidance

PROJECTS

Electronic Health Record (EHR) System

- Developed a patient data management system in Java with a GUI for intuitive data entry and record management
- Implemented secure storage and retrieval of patient records using Java best practices
- Applied healthcare data handling standards and system design principles
- Planning to integrate AI features for smarter patient data access and analytics

BMI Prediction System

- Built a health assessment application using Python and data processing techniques
- Applied analytical methods for accurate BMI prediction and focused on usability

Sishu Restaurant Website

- Designed and developed a full restaurant website as front-end developer
- Published the project on GitHub; focused on responsive UI and clean design

VEX V5 Robotics Competition — Coder

- Represented 5 Kilo Campus; integrated code with the robot's brain to make it fully functional
- Enhanced STEM knowledge by applying programming logic to physical robotic systems

CERTIFICATIONS AND TRAINING

Digital Skills & Personal Branding Training

AAU Tech Club | December 2025

- Built a personal website and learned personal branding strategies for tech professionals

NSK AI Training

NSK AI Institute | Completed

- Explored how artificial intelligence is reshaping the job market and professional skills

CPD — Medical Device Quality Assurance

Continuing Professional Development | Completed

- Gained foundational knowledge in quality standards and regulatory requirements for medical devices

Data Science & Machine Learning Bootcamp *(Ongoing)*

AAU Tech Club AI Bootcamp | 2025–2026

- Building hands-on skills in data science, machine learning, and AI model development

English Language Communication Program

English Language Communication Center (ELCC) | Completed

- Two-month intensive program focused on academic and professional English enhancement
- Developed advanced communication skills for technical and research environments
